2. The amount of water applied for is.....1.34.....second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet.....
3. The water to be used for.....mining and milling.....
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated.....
 - (b) Stockwater, state number and kinds of animals to be watered.....
 - (c) Other use (describe fully under "No. 12. Remarks").....mining and milling.....
 - (d) Power:
 - (1) Horsepower developed.....
 - (2) Point of return of water to stream.....
5. The water is to be diverted from its source at the following point in SW 1/4 SW 1/4 Section 4 T.18S.
Describe as being within a 40-acre subdivision of public
R. 64E., M.D.M. or from the point bearing S 31° 10' W at a distance
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
of 141.65 feet to the southwest corner of said section
6. Place of use.....N 1/2 Section 8 and S 1/2 Section 5 T.18S. R. 64E., M.D.M.....
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
7. Use will begin about January 1.....and end about December 31....., of each year.
Month and Day Month and Day
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Drilled well with pump and motor and
State manner in which water is to be diverted, i.e. diversion structure, ditches and
storage tank at facility.
flumes, drilled well with pump and motor, etc.
9. Estimated cost of works.....\$80,000

10. Estimated time required to construct works.....three months.....
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use.....Two years.....

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Water will be used for mining and milling purposes at the above described location. Yearly water demand is expected to be 970 acre-feet for the total well field consisting of 2 or 3 wells. A map of well locations and a separate application or amended application for each well will be submitted after test drilling and production well construction is completed.

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin. (CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.34 cubic feet per second, but not to exceed 58 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before.....October 16, 1988

Proof of completion of work shall be filed on or before.....November 16, 1988

Application of water to beneficial use shall be made on or before.....October 16, 1990

Proof of the application of water to beneficial use shall be filed on or before.....November 16, 1990

Map in support of proof of beneficial use shall be filed on or before.....N/A

Completion of work filed.....NOV 16 1988.....IN TESTIMONY WHEREOF, I.....PETER G. MORROS
State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed.....my office, this 16th day of October

Certificate No.....Issued.....

A.D. 19.....87.....
Peter G. Morros
State Engineer

(PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
